<p>DISCUSSION PROMPTS</p> <p>1 Discuss these questions with your classmates or with a partner.</p>	<p style="text-align: right;"><i>Estimated Time: 5 minutes</i></p> <ol style="list-style-type: none"> 1. What is sponsorship? <i>Sponsorship is a form of marketing in which companies attach their name, brand, or logo to an event for the purpose of achieving future profits.</i> 2. What are some examples of sponsorship that you have seen? <i>Student answers will vary</i> 3. What makes sponsorship work? <i>Student answers will vary</i> 4. Define Target market. <i>A target market is a group of people with a defining set of characteristics that set them apart as a group.</i>
<p>EXPERT KNOWLEDGE</p> <p>2</p>	<p><i>For the activity, students should 1) recognize that the cars are covered in sponsor logos and 2) explain why they included certain brands on the car and who those brands are trying to reach (target market) through the sponsorship. It is important to point out that, in the case of NASCAR, when you see a logo on a car or the driver's suit, that brand is sponsoring that particular team and driver, not necessarily NASCAR as a "league" sponsor. brand is sponsoring that particular team and driver, not necessarily NASCAR as a "league" sponsor.

Also, the placement of the logos on the race car and size of the decal is important, both for sponsor visibility and determining a "rate card" (how much brands pay for that advertising space). The team's primary sponsor will have the biggest logo, prominently featured on the hood of the car. The primary sponsor also chooses the car's paint scheme and the team colors. This is why a car's paint scheme is typically aligned with the primary sponsor's brand. For example, in the 2024 Daytona 500, Bubba Wallace is sponsored by McDonalds, which is why the car is black and red and the hood is adorned with the McDonald's M logo. Denny Hamlin's car is white with orange and blue numbering, consistent with the color scheme of the FedEx brand which is plastered on the hood of his car. Same goes for the driver's suit/uniform.

After the hood of the car, the quarter panels are the most expensive place (right in front of or right behind the rear wheel) to place a logo. That area could cost between \$1 million and \$1.5 million for a full season. "In-kind" sponsorship opportunities also exist. With an in-kind sponsorship, a brand provides a product or service in exchange for advertising space (or sometimes tickets, hospitality at the events etc). In other words, AutoZone might provide all the tools and parts for a NASCAR team in exchange for the rights to put their logo on a team's car, driver's hat or suit/uniform.

Design a Race Car:

Race Car Design Project
Presentation

STUDENT ANSWERS WILL VARY

This activity explores the concept of sports and entertainment sponsorship. You will gain an understanding of why companies make the decision to engage in sponsorship as a promotional opportunity for their business, as well as the decisions required to ensure their sponsorship program is a sound investment. In addition, you will begin to understand the significance of sponsorship and its impact on the financial viability of sports, entertainment, and event properties.

Things to consider when organizing your design:

1. Who is your target market?
2. Will your race car include logos of your sponsors?
3. If your car does include logos, how will you determine the placement of such logos and the size of each logo? How will you determine the placement of a logo?
4. Determine how you will charge a potential sponsor for logo placement on your race car (rate card).
5. How or by what means can a sponsor secure logo space?
6. What color scheme did you choose? Why?
7. How did you decide on a number for the race car?
